

TEAM HEALTH MANIFESTO

1 PEOPLE MATTER We should use things, not people.

2 DIVERSITY COUNTS Every person has inherent and intrinsic value, dignity and worth.

3 WHOLENESS IS THE GOAL Nothing is more valuable than our holistic well-being.

4 DEVALUATION IS EVIL Treating people of value like they don't matter is wrong.

5 ENTROPY LIKES DARKNESS & IGNORANCE It happens most readily where its presence is not recognized or acknowledged.

6 CONFLICT STARTS INSIDE PEOPLE The environment doesn't start the fire, it only adds fuel to the spark in the heart.

7 NARCISSISTIC ENTITLEMENT DRIVES CONFLICT Our demands are met at the expense of others.

8 MEAN PEOPLE SUCK They drain life from the living.

9 INCREASING HEALTH REDUCES CONFLICT When we work on one, we improve the other.

10 HEALTH ISN'T MAGICALLY OBTAINED It is the product of hard work from everybody.

11 HEALTH IS POSSIBLE We don't have to be dysfunctional.

12 HEALTHY PEOPLE CHANGE LIVES We can't be who we were made to be or change the world if we aren't healthy ourselves.

13 DIVERSITY IS POWER Healthy teams value, celebrate and leverage it.

14 HEALTH PAYS FOR ITSELF It is self-funding (and then some) in the long run.

15 HEALTH LEADS TO POSITIVE CONSEQUENCES When we focus first on health, the rest follows.

16 HEALTHY TEAMS WIN They finish first in every respect.
